## STOP ALL ARGUMENTS

### No Arguments for 90 Days!

Often angry, overbearing, controlling, demanding men HAVE to be right and won't stop until they get their way. As wives of these men often tell me: "I can't take it any more! Talking with him is like standing in front of a freight train. He just won't stop until we 'resolve it,' which means do it his way. Of course, the way he remembers anything is always, THE TRUTH."

When the wife has one foot out the door and the lawyer on speed dial, some men want to know what they can do to stay married and not end up divorced, again. I ask their wife in front of them, "How would it be if he didn't argue with you at all for the next 90 days?" I have never heard a wife say anything but, "That would be wonderful!" I ask the man if he would be willing to do that starting at this moment and continuing for the next 90 days. If he agrees, he usually wants to know HOW to do that.

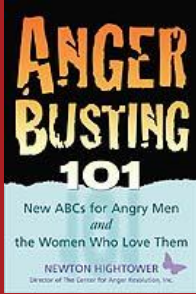

It's easy as saying 3 words. I tell him that his marriage is hanging by a thread and if you say anything but these 3 words, then you may be history. Then I ask if he is ready? The three words are: "You are right." Most often men will say, "Yeah, but what if she isn't right?" I reply, "You don't understand, SHE IS RIGHT and it is your job to figure out how she is right and give her an example." Now for the advanced course, only if you are ready. "You are right. I am wrong - totally and completely wrong. You are totally and completely right." I explain there is not to be one trace of condescending tone or sarcasm and get ready with the examples or she is going to speed dial the lawyer.

Now just one more thing that will probably get you to the next session without getting filed on. That is for the next week, you "DO" whatever she wants to do. The phrase for that is: "Whatever you want to do Honey is fine with me."

Usually the wife will hang on for another week without filing, IF he is willing to stop all arguments and do whatever she wants him to do. She may even think that this therapy may stand a chance of helping him.
